## ■ WHAT IS PLATYPUS COIN?

"Thy kingdom come. It will be done in the ocean, as it is in heaven." Creator of all Platypuses

Platypus Coin is your new King Meme Coin. Wanna get rich? Get \$PUS. And don't let the train leave without you...

The vast Kingdom Opens Up for you - from the Golden Coins stacked in a Bank, farmed on the diamond fields, to NFTs that let you ripe rewards in Kingly Games, much is at stake.

## NFTs

Cool Kingly NFTs will be sold quarterly in limited editions. Each edition will only have 666 Platypuses with different tiers.

Those NFTs will give Premium Access to our future games functions, passive income opportunities and all that they are sold for will go for massive \$PUS buybacks & burns.

## Tap2Earn

Kingdom of Platypuses is full of fun and opportunities! This is why you will have a chance to play in our Tap2Earn games, which will let you earn \$PUS and unlock access to mystery loot boxes!

## Charity

We all know how difficult it is to puddle the water. That's why we are committed to saving other less fortunate Platypuses in these dangerous waters!
